

BELT FASTENERS & TOOLS

## CONVEYOR ACCESSORIES ELECTRIC SKIVING TOOL KIT

CAI'S Electric skiving tool kit (EST-KIT) quickly skives belts for fast and easy installation of mechanical fasteners. Unit has 4 temperature settings for multiple rubber compounds. Pressure enabled contacts heat blades precisely when cutting, maximizing blade life. Clamping jaws adjust to accept blade widths from 2mm to 22mm. Unit is 110V A/C.
